

Update to Cision's Optional Sub-Processors

As you have registered to receive updates to Cision's Sub-Processors, please note that we have made some changes to them which can be viewed [here](#).

Please note that the use of these Sub-Processors is entirely optional upon each customer.

If you have any questions or object for reasons related to Data Protection, please send an email to DPO@cision.com with the subject "Subprocessor Objection", including the ground(s) for the objection, within thirty (30) days of this notification.

Otherwise, we will assume you agree to these additions.
